

SUBSIDIARY LEGISLATION 549.07**DEPOSIT OF WASTES AND RUBBLE (FEES)
REGULATIONS**

29th August, 1997

LEGAL NOTICE 128 of 1997, as amended by Legal Notices 206 of 1997, 190 of 1999, 405 and 426 of 2007, 382 of 2009, 279 of 2010, 203 of 2011 242 of 2022 and 22 of 2025.*

1. The title of these regulations is the Deposit of Wastes and Rubble (Fees) Regulations. Citation.

2. For the purpose of these regulations and unless the context otherwise requires - Definitions.
*Amended by
L.N. 382 of 2009;
L.N. 242 of 2022.*

"Act" means the Environment Protection Act; Cap. 549.

"Authority" means the Environment and Resources Authority as established under the Environment Protection Act; Cap. 549.

"Chief Executive of the Water Services Corporation" means the official delegated by virtue of the Water Services Corporation Act, to be responsible for the control and management of the Water Services Corporation and includes any other officer in his Corporation who acts on his behalf for the purpose of the regulations. Cap. 355.

"Department for Waste Strategy Implementation" means the government entity entrusted with the responsibility for waste management strategy implementation;

"Director for Waste Strategy Implementation" means the official delegated to be responsible for the control, direction and management of the Department for the Waste Strategy Implementation, and includes any other officer in his Department who acts on his behalf;

"depositor" means any person who deposits any rubble, waste or hazardous waste using a vehicle to transport it to a deposit site;

"domestic waste" means waste which is not hazardous waste and which is collected from premises used exclusively for human habitation, in Malta,

"hazardous waste" means waste which is included in Schedule A and any other type of waste which the Authority has reason to believe to be hazardous;

"mixed waste" means mixed refuse, intended for collection by the respective Local Council's agent or contractor, on the indicated day;

"rubble" means rubble originating in Malta and which is not soil

*The coming into force of the amendments made by Legal Notice 382 of 2009 is as follows:

- (a) for waste deposited at public deposit sites by or on behalf of Local Councils, they shall be deemed to have come into force on the 1st October, 2009; and
- (b) for waste deposited at public deposit sites by or on behalf of other entities, they shall be deemed to have come into force on the 1st April, 2010.

and includes such material as dust, lime-stone or other kinds of stone, concrete, floor-tiles, ground stone, sand, gravel and rubble which results from excavations, ground preparation, demolition of buildings, road works and other similar works;

"vehicle" means any vehicle which is registered with the Director for Waste Strategy Implementation which is self-propelled or otherwise and which is used for the transportation of rubble, waste or hazardous waste and includes a truck, tipper, waste collecting vehicle, trailer, lorry, skip loader hopper barge or any other sea craft used for the disposal of waste at sea but excludes any vehicle licensed for domestic purposes which carries less than one metric tonne of rubble, waste or hazardous waste;

"waste" means all types of wastes originating in Malta which are transported by the vehicle, but does not include hazardous waste;

"waste desposit site" means any site on land or at sea which is licensed by the Authority for the deposit of rubble, waste or hazardous waste and which is included from time to time in Schedule B.

"waste electrical and electronic equipment" or "WEEE" means electrical and electronic equipment which is waste as defined in regulation 4 of the Waste Regulations, including all components, sub-assemblies and consumables which are part of the product at the time of discarding;

S.L. 549.63.

"waste management facility" means a site or facility that allows for the storing, sorting, source segregating, treatment and transfer of waste.

Deposit of waste.

3. No person may deposit any rubble, waste or hazardous waste in any site unless it is a deposit site.

Site owners to be licensed.

4. Any person who is an owner of a site which is used for the depositing of rubble, wastes or hazardous wastes must be in possession of a licence issued by the Authority for that purpose.

Inspection of deposit site.

5. The Authority, the Director for Waste Strategy Implementation and the Chief Executive of the Water Services Corporation may at any time inspect any deposit site and make any tests, take any samples or other evidence so as to ascertain that the deposit of rubble, waste or hazardous waste is in no way prejudicial to the environment or to the integrity of the water resources:

Provided that any person who is either the owner or is responsible for the site must provide access, assistance and the information requested by the Directors and Chief Executive mentioned in these regulations.

Registration of vehicle.

6. Any person who deposits rubble, waste or hazardous waste must register every vehicle with the Department for Waste Strategy Implementation and renew the registration annually from the day when the first registration was made unless the registration has been previously cancelled by the said Director.

Inspections.

7. The Authority and the Director for Waste Strategy Implementation may, separately or jointly, following an application for registration, and at any time thereafter, inspect the vehicle so as

to ascertain that it is fit and continues to be fit for the purpose of carrying the rubble, waste and hazardous waste for which it is registered.

8. Any person who deposits rubble in a public deposit site shall pay the sum of €3.21 excluding Value Added Tax to the government entity entrusted with the responsibility for waste management strategy implementation for every metric tonne of rubble to be deposited:

Rubble deposit fee.
Amended by:
L.N. 426 of 2007.
Substituted by:
L.N. 382 of 2009;
L.N. 279 of 2010;
L.N. 242 of 2022.

Provided that the deposit of domestic rubble in the public deposit sites indicated in items 7 to 12 in Schedule B by the householder generating that waste, is exempt from payment of this fee.

9. Any person who deposits waste and, or WEEE in a public deposit site must pay the fee indicated in Schedule C to the government entity responsible for waste management strategy implementation for every metric tonne of such waste to be deposited:

Waste deposit fee.
Amended by:
L.N. 405 of 2007;
L.N. 426 of 2007;
L.N. 382 of 2009.
Substituted by:
L.N. 242 of 2022.

Provided that if the actual weight of the rubble or waste to be deposited cannot be established, the government entity entrusted with the responsibility for waste management strategy implementation may demand the same rate indicated in Schedule C but calculated against a density of 2 metric tonnes per cubic metre for every cubic metre as estimated from the outer dimensions of the receptacle which contains rubble or waste which is not hazardous waste:

Provided further that the deposit of domestic waste in the public deposit sites indicated in items 7 to 12 in Schedule B by the householder generating that waste, is exempt from payment of this fee:

Provided further that any person who deposits dredged material or inert uncontaminated geological material in a deposit site at sea as included in Schedule B, must have in his possession a permit in writing to this effect from the Authority, and pay any fees as the Authority may so require. The Minister responsible for the environment jointly with the Minister responsible for finance, may, through publication of a notice in the Gazette, exempt any person from the payment of such fees, in full or in part, if, the project in question is declared to have any strategic or national significance:

Provided further that the Authority may refuse to permit the deposit of rubble, waste, WEEE, and, or hazardous waste in a deposit site if in its opinion this will result in considerable damage to the environment or is in contravention of international obligations, or for any other reason the same Authority deems appropriate.

10. Any person who deposits hazardous waste in a deposit site shall have in his possession, a permit in writing to this effect from the Authority:

Hazardous waste fees.
Amended by:
L.N. 426 of 2007.
Substituted by:
L.N. 382 of 2009.
Amended by:
L.N. 203 of 2011.
Substituted by:
L.N. 242 of 2022.

Provided that if the hazardous waste or other waste is deposited in a public facility, the person who deposits the hazardous waste or other waste shall pay the fee indicated in Schedule D to the

government entity entrusted with the responsibility for waste management strategy implementation, for every metric tonne of such waste to be deposited. These rates may be adjusted periodically to reflect changes to the Retail Price Index:

Provided further that the deposit of domestic hazardous waste in the public deposit sites indicated in items 7 to 12 in Schedule B by the householder generating that waste, is exempt from payment of this fee.

Exemption from paying fee.

11. Any person who deposits waste which is transported by a vehicle may be exempted from paying the fee referred to in regulation 8 and 9 and after having obtained the written permission of the Director of Waste Strategy Implementation.

Registration of vehicles.

12. After the 31st October, 1997, no person may transport rubble, waste or hazardous waste by means of a vehicle which is not registered with the Director for Waste Strategy Implementation.

Registration fee.
Amended by:
L.N. 426 of 2007.

13. The owner of any vehicle used to transport rubble, waste or hazardous waste must pay the Director for Waste Strategy Implementation a fee of twenty-three euro and twenty-nine cents (€23.29) to register the vehicle for that purpose and must pay the same amount every year thereafter to renew the registration, unless the registration is deleted by the same Director beforehand.

Bank guarantee.
Amended by:
L.N. 190 of 1999.

14. (*Deleted by L.N. 382 of 2009.*)

Applicant for deposit site to have insurance coverage.
Amended by:
L.N. 426 of 2007.

15. The applicant for a deposit site must be covered by an insurance policy for environmental damages resulting from the deposit of rubble, waste or hazardous waste and by whatever means. The sum covered by the insurance policy must be decided by the Chief Executive for the Water Services Corporation according to the vulnerability of the aquifer where the deposit site is located. The sum covered by the insurance policy however may not be less than five hundred and eighty-two thousand and three hundred and forty-three euro and thirty-five cents (€582,343.35):

Provided that if the aquifer is damaged and the damages exceed the sum covered by the insurance policy the applicant is responsible for the additional costs. Damages would be estimated also on the loss of production of water as well as on all remedial works to reverse the damage.

Identification of vehicles.

16. The Director for Waste Strategy Implementation must provide the owner of any registered vehicle, according to and for the purpose of these regulations with means of identification for each particular vehicle. These identifications must be portrayed at all times on the same vehicle to the satisfaction of the same Director in order to permit the exclusive entry of the vehicle in any deposit site.

Collection of fees.

17. The Director for Waste Strategy Implementation, and, or the Director for the Environment and, or the Chief Executive of the Water Services Corporation as applicable, may make special arrangements for the collection of fees due to him, including the period of collection of the same fees, and the place where they are

to be paid.

18. The Director for Waste Strategy Implementation and, or the Authority where applicable may refuse to permit the deposit of rubble, waste and hazardous waste until the fees due are paid after the expiry of a reasonable time limit which shall not exceed sixty days from the day when the first request is made.

Payment of fees.

19. The fees prescribed under these regulations may be collected according to the method laid down in the Code of Organization and Civil Procedure for the collection of fees that are due to the Authority and, or the Department for Waste Management as applicable.

Applicability of the Code of Organization and Civil Procedure. Cap. 12.

20. Any person who contaminates or in some way mixes rubble with waste or hazardous waste shall be guilty of an offence under these regulations.

Contamination, etc., of rubble.

21. These regulations shall apply in the same manner to all Government Departments, parastatal organisations, public corporations and other similar entities.

Applicability of fee regulations.

22. Any person shall be guilty of an offence under these regulations if:

Offences under these regulations.

- (a) he fails to comply with any provision of these regulations or with any order lawfully given in terms of any provision of these regulations; or
- (b) he contravenes any restriction, prohibition or requirement imposed by or under these regulations, or
- (c) he acts in contravention of any of the provisions of these regulations; or
- (d) he conspires or attempts, or aids, or abets, any other person by whatever means, including advertising, counselling or procurement to contravene the provisions of these regulations or to fail to comply with any such provisions (including any order lawfully given in terms of any of the provision of these regulations) or to contravene any restriction, prohibition or requirement imposed by or under the said regulations.

23. Any person who commits an offence against these regulations shall, on conviction, be liable:

Penalties.
Amended by:
L.N. 426 of 2007.

- (a) on a first conviction to a fine (*multa*) of not less than one thousand and one hundred and sixty-four euro and sixty-nine cents (€1,164.69) but not exceeding two thousand and three hundred and twenty-nine euro and thirty-seven cents (€2,329.37);
- (b) on a second or subsequent convictions, to a fine (*multa*) of not less than two thousand and three hundred and twenty-nine euro and thirty-seven cents (€2,329.37), but not exceeding four thousand and six hundred and fifty-eight euro and seventy-five cents (€4,658.75) or to imprisonment for a term not exceeding two years, or to both such fine and

imprisonment:

Provided that whenever any person is found guilty of committing an offence under these regulations by means of a vehicle, the owner of the said vehicle, where applicable, is held liable in the same manner and degree;

Provided further that the court shall order any person who has been found guilty of committing an offence against these regulations to pay for the expenses incurred by the Departments mentioned in these regulations as a result of the said offence, the revocation of the permit issued by the Police and the confiscation of the *corpus delicti*.

Applicability of the
Criminal Code.
Cap. 9.

24. (1) The provisions of articles 23 and 30(1) of the Criminal Code shall, *mutatis mutandis*, apply to proceedings, in respect of offences against these regulations, so however that the disqualification from holding or obtain a licence, permit or authority shall in no case be for less than one year.

Cap. 9.

(2) Notwithstanding the provisions of section 370 of the Criminal Code, proceedings for an offence against these regulations shall be taken before the Court of Magistrates (Malta) or the Court of Magistrates (Gozo), as the case may be, and shall be in accordance with the provisions of the Criminal Code regulating the procedure before the said courts as courts of criminal judicature.

Cap. 9.

(3) Notwithstanding the provisions of the Criminal Code, the Attorney General shall always have a right of appeal to the Court of Criminal Appeal from any judgement given by the Court of Magistrates (Malta) or the Court of Magistrates (Gozo) in respect of proceedings for any offence against these regulations.

SCHEDULE A

List of Hazardous Waste

PART I

Toxic and potentially toxic originating from Industrial and non-industrial, services, etc. or containing chemicals as listed in this Schedule.

Waste stream description

Clinical wastes from medical care in hospitals, medical centres and clinics

Wastes from the production and preparation of pharmaceutical products

Waste pharmaceuticals, drugs and medicines

Wastes from the manufacture, formulation and use of wood preserving chemicals

Wastes from the production, formulation and use of organic solvents

Waste from heat treatment and tempering operations containing cyanides

Waste mineral oils unfit for their originally intended use

Waste oils/water, hydrocarbons/water mixtures, emulsions

Waste substances and articles containing or contaminated with polychlorinated biphenyls (PCBs) and/or polychlorinated terphenyls (PCTs) and/or polybrominated biphenyls (PBBs)

Waste tarry residues arising from refining, distillation and any pyrolytic treatment

Wastes from the production, formulation and use of inks, dyes, pigments, paints, lacquers, varnish

Wastes from the production, formulation and use of resins, latex, plasticizers, glues/adhesives

Waste chemicals arising from research and development or teaching activities which are not identified and/or are new and whose effects on man and/or environment are not known

Wastes of an explosive nature not subject to other legislation

Wastes from the production, formulation and use of photographic chemicals and processing materials

Wastes resulting from surface treatment of metals and plastics

Residues from industrial waste disposal operations

Wastes having as constituents:

Metal carbonyls

Beryllium, beryllium compounds

Hexavalent chromium compounds

Copper compounds

Zinc compounds

Arsenic; arsenic compounds

Selenium; selenium compounds

Cadmium; cadmium compounds

Antimony; antimony compounds

Tellurium; tellurium compounds
 Cadmium; cadmium compounds
 Antimony; antimony compounds
 Tellurium; tellurium compounds
 Mercury; mercury compounds
 Thallium; thallium compounds
 Lead; lead compounds
 Inorganic fluorine compounds excluding calcium fluoride
 Inorganic cyanides
 Acidic solutions or acids in solid form
 Basic solutions or bases in solid form
 Asbestos (dust and fibres)
 Organic phosphorous compounds
 Organic cyanides
 Phenols; phenol compounds including chlorophenols
 Ethers
 Halogenated organic solvents
 Organic solvents excluding halogenated solvents
 Any congener of polychlorinated dibenzo-furan
 Any congener of polychlorinated dibenzo-p-dioxin
 Organohalogen compounds other than substances referred in this Part

 Other
 Any products containing asbestos
 Radioactive wastes and/or any wastes containing radionucleotides.

PART II

Toxic or Potentially Toxic Chemicals

<i>1, 2-Dibromaethane</i>	<i>106-93-4</i>
<i>1, 2-Dichloroethane</i>	<i>107-6-2</i>
<i>2,4,5-T</i>	<i>93-76-5</i>

Vinyl Chloride

Yellow Phosphorous

PART III

A. Toxic chemicals:

- (1) O-Alkyl (C10, incl. cycloalkyl) alkyl
(Me, Et, n-Pr or i-Pr) -phosphonofluoridates
e.g. Sarin: O-Isopropyl methylphosphonofluoridate (107-44-8)
Soman: O-Pinacolyl methylphosphonofluoridate (96-64 0)
- (2) O-Alkyl (C10, incl. cycloalkyl) N,N-dialkyl
(Me F,t, n-Pr or i-Pr) phosphoramidocyanidates
e.g. Tabun: O-Ethyl N, N-dimethyl phosphoramidocyanidate (77-81-6)
- (3) O-Alkyl (H or _ C10, incl. cycloalkyl) S-2-dialkyl
(Me, Et, n-Pr or i-Pr) -aminoethyl alkyl
(Me, Et, n-Pr or i-Pr) phosphonothiolates and corresponding
alkylated or protonated salts
e.g. VX: O-Ethyl S-2-diisopropylaminoethyl methyl
phosphonothiolate (50782-69-9)
- (4) Sulfur mustards:
2-Chloroethylchloromethylsulfide (2625-76-5)
Mustard gas: Bis(2-chloroethyl)sulfide (505-60-2)
Bis(2-chloroethylthio) methane (6389-13-6)
Sesquimustard: 1,2-Bis(2-chloroethylthio) ethane (3563-36-8)
1,3-Bis(2-chloroethylthio)-n-propane (63905-10-2)
1,4-Bis(2-chloroethylthio)-n-butane (142868-93-7)
1,5 -Bis(2-chloroethylthio)-n-pentane (142868-94-8)
B is(2-chloroethylthiomethyl)ether (63918-90-1)
O-Mustard: Bis(2-chloroethylthioethyl)ether (63918-89-8)
- (5) Lewisites:
Lewisite 1: 2-Chlorovinylchloroarsine (541-25-3)
Lewisite 2: Bis(2-chlorovinyl)chloroarsine (40334-69-8)
Lewisite 3: Tris(2-chlorovinyl) arsine (40334-70-1)
- (6) Nitrogen mustards:
HN 1: Bis(2-chloroethyl)ethylamine (538-07-8)
HN2: Bis(2-chloroethyl)methylamine (51-75-2)
HN3: Tris(2-chloroethyl)amine (555-77-1)
- (7) Saxitoxin (35523-89-8)
- (8) Ricin (9009-86-3)
- B. Precursors:
- (9) Alky (Me, Et, n-Pr or i-Pr) phosphonydifluorides
e.g. DF: Methylphosphonydifluoride (676-99-3)
- (10) O-Alkyl (H or _ C10, incl. cycloalkyl))-2-dialkyl
(Me, Et, n-Pr or i-Pr)-aminoethyl alkyl
(Me, Et, n-Pr or i-Pr) phosphonites and corresponding
alkylated or protonated salts

e.g. QL: O-Ethyl 0-2-diisopropylamineethyl methylphosphonite	(57856-11-8)
(11) Chlorosarin: O-Isopropyl methylphosphonochloridate	(1445-76-7)
(12) Chlorosoman: O-Pinacolyl methylphosphonochloridate	(7040-57-5)
A. Toxic chemicals:	
(1) Amiton: O,O-Diethyl S-[2-(diethylamino)ethyl] phosphorothiolate and corresponding alkylated or protonated salts	(78-53-5)
(2) PFIB: 1,1,3,3,3-Pentafluoro-2-(trifluoromethyl)1-propene	(389-21-8)
(3) BZ: 3-Quinuclidinyl benzilate (*)	(6581-06-2)
B. Precursors:	
(4) Chemicals, except for those listed in Schedule I, containing a phosphorus atom to which is bonded one methyl, ethyl or propyl (normal or iso) group but not further carbon atoms, e.g. Methylphosphonyl dichloride	(676-97-1)
Dimethyl methylphosphonate	(756-79-6)
Exemption: Fonofos: O-Ethyl S-phenyl ethylphosphonothiolothionate	(944-22-9)
(5) N,N-Dialkyl (Me, Et, n-Pr or i-Pr) phosphoramidic dihalides	
(6) Dialkyl (Me, Et, n-Pr or i-Pr) N,N-dialkyl (Me, Et, n-Pr or i-Pr)-phosphoramidates	
(7) Arsenic bichloride	(7784-34-1)
(8) 2,2-Diphenyl-2-hydroxyacetic acid	(76-93-7)
(9) Quinuclidine-3-ol	(1619-34-7)
(10) N,N-Dialkyl (Me, Et, n-Pr or i-Pr) aminoethyl-2-chlorides and corresponding protonated salts	
(11) N,N-Dialkyl (Me, Et, n-Pr or i-Pr) aminoethane-2-ols and corresponding protonated salts	
Exemptions: N,N-Dimethylaminoethanol and corresponding protonated salts	(108-01-0)
N,N-Diethylaminoethanol and corresponding protonated salts	(100-37-8)
(12) N,N-Dialkyl (Me, Et, n-Pr or i-Pr) aminoethane-2-thiols and corresponding protonated salts	
(13) Thiodiglycol: Bis(2-hydroxyethyl)sulfide	(111-48-8)
(14) Pinacolyl alcohol: 3,3-Dimethylbutane-2-ol	(464-07-3)
A. Toxic chemicals:	
(1) Phosgene: Carbonyl dichloride	(75-44-5)
(2) Cyanogen chloride	(506-77-4)
(3) Hydrogen cyanide	(74-90-8)
(4) Chloropicrin: Trichloronitromethane	(76-06-2)
B. Precursors:	
(5) Phosphorus oxychloride	(10025-87-3)
(6) Phosphorus bichloride	(7719-12-2)
(7) Phosphorus pentachloride	(10026-13-8)
(8) Trimethyl phosphite	(121-45-9)

(9) Triethyl phosphite	(122-52-1)
(10) Dimethyl phosphite	(868-85-9)
(11) Diethyl phosphite	(762-04-9)
(12) Sulfur monochloride	(10025-67-9)
(13) Sulfur dichloride	(10545-99-0)
(14) Thionyl chloride	(7719-09-7)
(15) Ethyldiethanolamine	(139-87-7)
(16) Methyldiethanolamine	(105-59-9)
(17) Triethanolamine	(102-71-6)

SCHEDULE B

Deposit Sites

Substituted by:
L.N. 206 of 1997.
Amended by:
L.N. 405 of 2007.
Substituted by:
L.N. 382 of 2009.
Amended by:
L.N. 279 of 2010.
Substituted by:
L.N. 242 of 2022;
L.N. 22 of 2025.

I - Public Deposit Sites on Land

1. Waste Management Facility within ECOHIVE Complex, Tul il-Kosta Street, Naxxar.
2. Materials Recovery Facility - Sant'Antnin Waste Treatment Plant, Marsascala.
3. Temporary Waste Transfer Station - Tal-Qortin, Xagħra, Gozo.
4. Thermal Treatment Facility, Triq il-Biċċerija, Marsa.
5. Civic Amenity Site, Ramla Road, Magħtab.
6. Civic Amenity Site, Triq it-Territorjal, Mrieħel.
7. Civic Amenity Site, Triq Birżebbuġa, Hal Far.*
8. Civic Amenity Site, Luqa.
9. Civic Amenity Site, Ta' Qali.*
10. Civic Amenity Site, Tal-Kus, limits of Xewkija, Gozo.*
11. Private facilities contracted to provide public services in waste management.

12. Multi-Material Recovery Facility, Hal Far.

13. Material Recovery Facility, Naxxar.

* Hal Far, Ta' Qali and Tal-Kus Civic Amenity Sites are open for the domestic and commercial sectors.

II - Sites at Sea

A deposit site for dredged material and inert uncontaminated geological material having a radius of about 350 meters and centered on Latitude 35°55.1'N and Longitude 14°34.0'E.

SCHEDULE C

Added:
L.N. 190 of 1999.
Amended by:
L.N. 426 of 2007.
Substituted by:
L.N. 382 of 2009.
Amended by:
L.N. 203 of 2011.
Substituted by:
L.N. 242 of 2022;
L.N. 22 of 2025.

Table 1: Tariffs due for the deposit of waste and, or WEEE in public waste management facilities

	Waste and, or WEEE	€ Per tonne
A	Mixed waste deposited for landfilling in any public facility and, or private facilities contracted to provide such public service, which in either case are intended to provide services of this nature.	Refer to Table 3
B	Waste deposited for biological treatment or similar technology at any public facility and, or private facilities contracted to provide such public service, which in either case are intended to provide services of this nature*.	20

C	Dry waste separated at source, suitable for recycling and, or recovery deposited at any public facility and, or private facilities contracted to provide such public service, which in either case are intended to provide services of this nature*.	0.50
D	At source segregated bulky (dry) waste streams for recycling deposited at any public facility and, or private facilities contracted to provide such public service, which in either case are intended to provide services of this nature on behalf of Local Councils ⁺ .	Refer to Table 2
E	At source segregated bulky waste streams for recycling deposited by the commercial sector in one (1) of the identified Civic Amenity Sites*.	Refer to Table 2 + 35% supplementary fee [#]
F	Dry waste separated at source, suitable for recycling and, or recovery deposited by the commercial sector in one (1) of the identified Civic Amenity Sites*.	0.50 (row C) + 35% supplementary fee [#]

* Should waste declared as being at source segregated be found to be mixed with other waste e.g. organic waste, the applicable rate shall be the standard landfill rate indicated in row A together with charges for transportation of the waste to the landfill:

Provided that waste deposited and, or delivered after normal landfill operating hours as determined by the operator shall be charged an additional fee of two euro (€2) per metric tonne or as the government entity entrusted with the responsibility for waste management strategy implementation may so require to allow for the cost of double handling.

⁺Bulky waste operators operating on behalf of Local Councils and depositing at Civic Amenity Sites shall be exempted from any charges.

[#]Waste streams being accepted at the three (3) Civic Amenity Sites open for the commercial sector are: recyclables, flat glass, textiles, wood, mattresses, gypsum and expanded polystyrene.

The above rates are exclusive of VAT and may be adjusted periodically to reflect changes to the Retail Price Index.

The above rates shall not apply to waste directed for treatment at the Thermal Treatment Facility.

Table 2: Phasing in of Cost Recovery Charges on Waste Streams (€/tonne)

Total Cost per Tonne	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	2036	2037
Wood	30	30	40	50	60	75	85	95	105	115	125	140	150	160	170	170
Textiles	30	30	40	50	60	70	80	90	105	115	125	135	145	155	165	165
Mattresses	30	30	40	55	65	75	90	100	110	120	135	145	155	170	180	180
Tyres	30	30	35	40	45	50	55	60	65	70	75	80	85	90	95	95
Flat Glass	30	30	30	35	35	40	40	40	45	45	45	50	50	55	55	55
Gypsum	30	30	50	70	90	115	135	155	175	195	215	240	260	280	300	300
Expanded Polystyrene	30	30	65	100	130	165	200	235	265	300	335	370	400	435	470	470
WEEE	30	30	65	100	130	165	200	235	265	300	335	370	400	435	470	470

Table 3: Phasing in of cost charges for mixed waste deposited for land filling

2023	2024	2025	2026	2027
40	60	80	100	120

Table 4: Tariffs for Treatment of Non-Hazardous Waste at the Thermal Treatment

Facility, Triq il-Biċċerija, Marsa

Waste Stream	€ Per tonne
(a) Private slaughterhouses	50
(b) Deceased livestock from farms	50
(c) Horses	40 for every horse
(d) Deceased pets (including strays)	nil
(e) Fish	50
(f) Materials for which incineration is obligatory upon instruction of competent authorities	500

Other waste for incineration may be accepted in line with the facility's IPPC permit. The gate fee in paragraph (f) above shall apply in such cases.

The above tariffs are exclusive of VAT and may be adjusted periodically to reflect changes to the Retail Price Index.

SCHEDULE D
Regulation 10

Added by:
L.N. 203 of 2011.

Rates for Treatment of Hazardous Waste at the Thermal Treatment Facility,
Triq il-Biċċerija, Marsa

Waste Stream	Rate (€)
Clinical Waste	500.00 per tonne
Pharmaceuticals (≤ 10 kgs.)	5.00 per kg
Pharmaceuticals ($10 \leq 20$ kgs.)	4.00 per kg
Pharmaceuticals ($20 \leq 50$ kgs.)	3.00 per kg
Pharmaceuticals ($50 \leq 250$ kgs.)	2.00 per kg
Pharmaceuticals (> 250 kgs.)	500.00 per tonne
Solvents, Sludges and other hazardous waste (≤ 10 kgs.)	5.00 per kg
Solvents, Sludges and other hazardous waste ($10 \leq 20$ kgs.)	4.00 per kg
Solvents, Sludges and other hazardous waste ($20 \leq 50$ kgs.)	3.00 per kg
Solvents, Sludges and other hazardous waste ($50 \leq 250$ kgs.)	2.00 per kg

Solvents, Sludges and other hazardous waste (> 250 kgs.)	500.00 per tonne
Solvents, Sludges and other hazardous waste (> 10 tonnes per week)	350.00 per tonne

The above rates are exclusive of VAT and may be adjusted periodically to reflect changes to the Retail Price Index.
