ETAs without European Technical Approval Guidelines as per Article 11 of the Directive:

In product areas where no ETAG exists, ETAs can be awarded, subject to the agreement of all EOTA bodies and the European Commission, through what is known as the Common Understanding of Assessment Procedure (CUAP), in which the assessment criteria for the product and its intended use are set out.

Full details of this arrangement are given in EOTA's Common Procedural Rules for Requesting, Preparing and the Granting of European Technical Approvals, in

particular in sub-sections 3.2.3 and 3.2.4. The procedure is also called up in the CPD (Article 9.2)
