ETAs without European Technical Approval Guidelines as per Article 11 of the Directive:

In product areas where no ETAG exists, ETAs can be awarded, subject to the agreement of all EOTA bodies and the European Commission, through what is known

as the Common Understanding of Assessment Procedure (CUAP), in which the assessment criteria for the product and its intended use are set out.

Full details of this arrangement are given in EOTA's Common Procedural Rules for Requesting, Preparing and the Granting of European Technical Approvals, in particular in sub-sections 3.2.3 and 3.2.4. The procedure is also called up in the CPD (Article 9.2)

LIST OF HARMONISED STANDARDS

Harmonised standards of construction products for which CE marking is mandatory

Reference and Title of Harmonised Standard	Applicability Date ²	Co-Existence Period End- Date ³
EN 1:1998 as implemented nationally by MSA EN 1:2000 Flued oil stoves with vaporizing burners	1/1/2008	1/1/2009

² Date of applicability of the standard as a harmonised European standard

³ Same date as the date of withdrawal of conflicting national technical specifications, after which presumption of conformity must be based upon harmonised European specifications (harmonised standards or European Technical Approvals), available at page <http://ec.europa.eu/enterprise/newapproach/nando/index.cfm?fuseaction=cpd.hs> of the European Commission NANDO information system. When a harmonised standard is replaced with a new version, both versions of the standard can be used for the purpose of affixing CE marking until the end of the coexistence period.
